Megaphone

General Advice
- Never place the megaphone in direct sunlight or near a heat source for an extended period of time.
- Amplified sound howling (feedback) may cause a hearing injury. Never use a megaphone close to another person's ears.
- When cleaning the megaphone body, only use a neutral detergent and soft cloth. Do not use thinner or benzene.

Battery Installation
- Unscrew the compartment cover anti-clockwise.
- Remove the PP3 battery connector from the battery box.
- Pull out the battery box and remove from the compartment.
- Install 6x AA batteries int he battery box, observing the correct polarity.
- Install the loaded battery box inside the compartment and reattach the PP3 connector.
- Screw the cover clockwise ensuring the mic hole is in line with the microphone.

Operating Instructions
- The megaphone is activated when the push-to-talk switch is pressed.
- The megaphone will stop sounding when the push-to-talk switch is released.
- Control the loudness of the megaphone with the rotary volume control.
- Speak with your mouth 5-10mm away from the microphone mouthpiece. Speaking too closely will cause feedback.
- Do not cover the compartment openings with your finger or hand as this will cause feedback.

Precautions
- Try not to speak too close to the microphone as this may cause feedback.
- If not in use for some time, remove the batteries.
- Replace the batteries at regular intervals.

Specifications
Range: <180m, dependant on conditions
Power source: 6x AA batteries (not supplied)
Power output: 8W (rated), 12W (max)
Power duration: <4 hours
Weight: 405g (without batteries)
Dimensions: 155mm diameter x 275mm length

All electrical and electronic equipment

WEEE Directive & Product Disposal
At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.
